

Village Of Long Grove 2017/18 Road Paving & Patching.

The Village of Long Grove received low bid prices again this year as a result of a slow road paving economy coupled with the Village's on-going efforts to work with neighboring communities to develop a larger-scale overall program to achieve lower unit costs. This year the Village went out to bid with the neighboring community Kildeer and Ela Township. The Low-bid contract in the total amount \$1.19M was awarded to paving contractor *Geske & Sons*. This year's contract will result in the repaving of 3.4 miles of Village roads and well in excess of the Village's minimum goal for annual paving of 2.0 miles in order to properly maintain the Village's 30 miles of public roads on a 15-year re-paving schedule.

The roads scheduled to be paved this Summer/Early Fall are as follows:
