Item #4. Public Comment

Vernon Hills resident Chris Maier congratulates the Village of Long Grove for being voted the best in Illinois and second in the country to raise the family.

Mrs. Maier, also comment on meeting Abbot's member of staff and a landscaper who visited the site. Although they were not able to provide the specifics regarding the future improvements. Mrs. Maier believes that there are conversations about putting the drain tile next to her fence that should partially resolve hers and her neighbor's flooding issue, however she is concerned what solution will be offered to the other residents.

She is also concerned that the berm's high slope will prevent the berm from being able to be maintained through the cost-effective methods and will result in it being man maintained which will be very costly. Village Engineer Perry reported that Assistant Village Manger McCarthy had a conversation with Abbott, and they promised to clear the overgrown bush and a drain tile. Jacob confirms that Dana will continue conversations with Abbott regarding future maintenance or potentially removal of the berm.

HDLGBA President, Ryan Messner express concerns regarding the historic building survey in Long Grove Downtown, which the Association disagrees with. They believe that the money assigned for the survey will be better used to install the pathway in Archer Lot.

Benjamin Matthew, 4369 Oak Leaf Ln, question if there are any updates regarding 4359 IL Route 22. Second, Mr. Matthew asked if signs placed by the Village informing residents about the zoning changes can be upgraded to a bigger size as they are too small and hard to read now. Third, Mr. Matthew asked about a potential grant for the HOA's to maintain their roads.

President Jacob replied that the grants have not been put in this year's budget as the staff was not far enough along with the implementing it into the budget. Future discussion will take place later in the year to see if this can be included in the future budgets.

Mrs. Denice Steinmann from Beaver Creek Estates HOA commented that the HOA was in the process of planning for roads widening. Mrs. Steinmann also mentioned that the previous overlay maintenance was done over the crumbling road layer, which results in further deterioration of the surface.

Regarding the signs, Attorney Filippini says that there are no set standards for signs size and current signs are over and beyond what is legally required.

Regarding 4359 IL Route 22 an applicant letter with comments has been prepared and the applicant will be required to address those comments before future submittals can be made. Comment from the public regarding the estimate timeframe, to which Vic responds that the applicant will need to do considerable amount research and prepare the response to the Village, therefore it will take some time.
